Durango was founded by the Denver & Rio Grande Railway in 1879. The railroad arrived in Durango on August 5, 1881 and construction on the line to Silverton began in the fall of the same year. By July of 1882, the tracks to Silverton were completed, and the train began hauling both freight and passengers.

The line was constructed to haul silver & gold ore from the San Juan Mountains, but passengers soon realized it was the view that was truly precious.

This historic train has been in continuous operation for 128 years, carrying passengers behind vintage steam locomotives and rolling stock indigenous to the line. Relive the sights and sounds of yesteryear for a spectacular journey on board the Durango & Silverton Narrow Gauge Railroad.

Enjoy a ride on the Durango Silverton Narrow Gauge Railroad in the summer and fall or take the Cascade Canyon ride during the winter months. Special Event rides are also available and include the Polar Express, Thomas the Train, and Fall Photo train rides.
